**Other statutory information**

Before the financial statements of the Group and the Company were made out, the Directors took reasonable steps to ascertain that:

- (i) all known bad debts had been written off and adequate allowance made for doubtful debts, and
- (ii) all current assets have been stated at the lower of cost and net realisable value.

At the date of this report, the Directors are not aware of any circumstances:

- (i) that would render the amount written off for bad debts, or the amount of the allowance for doubtful debts, in the financial statements of the Group and the Company inadequate to any substantial extent, or
- (ii) that would render the value attributed to current assets in the Group and in the Company financial statements misleading, or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and the Company misleading or inappropriate, or
- (iv) not otherwise dealt with in this report or the financial statements, which would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year and which secured the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of any company in the Group and the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and the Company to meet their obligations when they fall due.

In the opinion of the Directors, the results of the operations of the Group and the Company for the financial year ended 31 December 2007 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of the financial year and the date of this report.

**REPORT OF THE AUDITORS TO THE MEMBERS OF  
ADVANCED PACKAGING TECHNOLOGY (M) BHD**  
(Co. No. 82982-K)  
(Incorporated in Malaysia)

We have audited the accompanying financial statements of ADVANCED PACKAGING TECHNOLOGY (M) BHD. These financial statements are the responsibility of the Company's Directors.

It is our responsibility to form an independent opinion, based on our audit, on those financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act 1965 and for no other purpose. We do not assume responsibility towards any other person for the content of this report.

We conducted our audit in accordance with approved standards on auditing in Malaysia. These standards require that we plan and perform the audit to obtain all the information and explanations, which we consider necessary to provide us with sufficient evidence to give reasonable assurance that the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. An audit also includes an assessment of the accounting principles used and significant estimates made by the Directors, as well as evaluating the overall adequacy of the presentation of information in the financial statements. We believe our audit provides a reasonable basis for our opinion.

In our opinion:

- (a) the financial statements are properly drawn up in accordance with the provisions of the Companies Act, 1965 and the applicable approved accounting standards in Malaysia for Entities Other than Private Entities so as to give a true and fair view of:
    - (i) the state of affairs of the Group and the Company as at 31 December 2007 and of the results of their operations and cash flows for the financial year ended on that date; and
    - (ii) the matters required by Section 169 of the Companies Act, 1965 to be dealt with in the financial statements of the Group and the Company;
- and
- (b) the accounting and other records and the registers required by the Companies Act, 1965 to be kept by the Company have been properly kept in accordance with the provisions of the said Act.

We have considered the financial statements and the auditor's report thereon of the subsidiaries of which we have not acted as auditors, as indicated in Note 10 to the financial statements.

1. **Summary of significant accounting policies** (continued)

(a) **Basis of accounting**

The financial statements of the Company have been prepared in accordance with applicable approved accounting standards for entities other than private entities issued by the Malaysian Accounting Standards Board (MASB), accounting principles generally accepted in Malaysia and the provisions of the Companies Act, 1965.

The financial statements have been prepared under the historical cost convention except as disclosed in this summary of significant accounting policies. The preparation of financial statements in conformity with Financial Reporting Standards, requires the use of certain critical accounting estimates and assumptions that effect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Company's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ.

(b) **Revenue and income recognition**

i) ***Sales of goods***

Revenue represents invoiced value of goods supplied less returns and discounts and is recognised in the income statement upon delivery of goods and customer's acceptance.

ii) ***Interest income***

Interest income is recognised in the income statement as it accrues, taking into account the effective yield on the assets.

(c) **Basis of consolidation**

Subsidiaries are those corporations in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are consolidated using the purchase method of accounting.

**AND ITS SUBSIDIARIES**

1. **Summary of significant accounting policies** (continued)

(c) **Basis of consolidation** (continued)

Under the purchase method of accounting, the results of subsidiary companies acquired or disposed off are included from the date of acquisition up to the date of disposal. The cost of an acquisition is measured at their fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange plus cost directly attributable to the acquisition.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's shares of the identifiable net assets acquired at the date of acquisition is reflected as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement.

Intragroup transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated but considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(d) **Property, plant and equipment**

(i) ***Recognition and measurement***

Property, plant and equipment are stated at cost less accumulated depreciation and less impairment losses, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate item (major components) of property, plant and equipment.

(d) **Property, plant and equipment** (continued)

(ii) ***Subsequent costs***

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the income statement as incurred.

(iii) ***Depreciation***

Property, plant and equipment are depreciated on a straight-line basis to write off the cost of the assets over the term of their estimated useful lives at the following principal annual rates:

|                                   |           |
|-----------------------------------|-----------|
| Building                          | 2% - 10%  |
| Plant, machinery and tools        | 7½% - 10% |
| Furniture, fittings and equipment | 10% - 20% |
| Motor vehicles                    | 20%       |

The depreciable amount is determined after deducting the residual value.

Depreciation methods, useful lives and residual values are reassessed at the reporting date.

(e) **Leased assets**

Leasehold land that normally has an indefinite economic life and title is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. The payment made on entering into or acquiring a leasehold land is accounted as prepaid lease payments that are amortised over the lease term in accordance with the pattern of benefits provided.

(f) **Investment in subsidiary**

Investment in subsidiary is stated at cost. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

1. **Summary of significant accounting policies (continued)**

(g) **Jointly controlled entity**

Jointly controlled entity is corporations, partnerships or other entity over which there is contractually agreed sharing of control by the Group with one or more parties where the strategic financial and operating decisions relating to the entity require unanimous consent of the parties sharing control.

The Group's interest in jointly controlled entity is accounted for in the consolidated financial statements by the equity method of accounting. Equity accounting involves recognising the Group's share of the post-acquisition results of jointly controlled entity in the income statement and its share of post-acquisition movements within reserves in reserves. The cumulative post-acquisition movements are adjusted against the cost of the investment and includes goodwill on acquisition (net of accumulated impairment loss).

(h) **Investment**

Investments in other non-current investments are shown at cost and an allowance for diminution in value is made where, in the opinion of the Directors, there is a decline other than temporary in the value of such investments. Where there has been a decline other than temporary in the value of an investment, such a decline is recognised as an expense in the period in which the decline is identified.

(i) **Receivables**

Receivables are initially recognised at their cost when the contractual right to receive cash or another financial asset from another entity is established. Subsequent to initial recognition, receivables are stated at cost less allowance for doubtful debts. Amount due from subsidiary is stated at cost.

(j) **Inventories**

Raw materials, work in progress, finished goods and consumables are stated at the lower of cost and net realisable value. In arriving at net realisable value, allowance is made for all obsolete inventories.

Cost of raw materials and consumables, which is determined on first in first out basis, includes all cost incurred in bringing them to their present location and condition.

Cost of work in progress and finished goods includes the cost of raw materials, direct labour and an appropriate proportion of the fixed and variable production overheads.

(k) **Cash and cash equivalents**

Cash and cash equivalents consist of balances and deposits with banks and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(l) **Liabilities**

Payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received.

(m) **Income tax**

Tax expense for the financial year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax expense is the expected tax payable on the taxable income for the financial year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of the previous financial years.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred tax asset and liabilities are not recognised for temporary differences arising from goodwill or negative goodwill or from the initial recognition of assets or liabilities that is not a business combination and that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

(n) **Employee benefits**

Short term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

The Company's contribution to the Employee's Provident Fund are charged to the income statements in the financial year to which they paid, the Company has no further payment obligations.

The Company has a staff gratuity scheme for employees who are eligible under their employment contracts. Gratuity for employees is provided for in the financial statements taking into consideration the length of service and basic salary earnings of eligible employees.

(o) **Impairment**

The carrying amounts of the Group's asset are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or the cash-generating unit to which it belongs exceeds its recoverable amount. Impairment losses are recognised in the income statement. Any subsequent increase in recoverable amount is recognised in the income statement.

The recoverable amount is the greater of the asset's net selling price and its value in use. In assessing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount and it is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have determined, net of depreciation or amortisation, if no impairment loss has been recognised.

(p) **Provisions**

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

***Contingent liabilities***

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(q) **Foreign currencies**

i) ***Functional and presentation currency***

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

ii) ***Transactions and balances***

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

iii) ***Group companies***

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of the balance sheet;
- income and expenses of each income statement are translated at the rate on the dates of the transactions.
- all resulting exchange difference are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to shareholders' equity. When a foreign operation is partially disposed of or sold, exchange differences were recorded in equity are recognised in the income statement as part of the gain or loss on sale.

The closing rates used in the translation for foreign currency monetary assets and liabilities are as follows:

(r) **Financial instruments**

A financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

(i) ***Financial instruments recognised on the balance sheet***

The particular recognition method adopted for financial instruments recognised on the balance sheet is disclosed in the individual policy statement associated with each item.

(ii) ***Fair value estimation for disclosure purpose***

The face values of financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values.

All financial instruments are denominated in Ringgit Malaysia unless otherwise stated.

(s) **Equity instrument**

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared and approved by the shareholders.

The transactions costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

2. **Staff costs**

Staff costs include Directors' remunerations, salaries, wages, bonus and allowances, statutory contributions for employees and other employee related expenses. The total number of employees, inclusive of executive Directors, of the Group and the Company as at the end of the financial year are 92 and 92 (2006: 98 and 98) respectively.

**26. Financial instruments**

**Financial risk management objectives and policies**

The main risks arising from the Group's financial assets and liabilities are credit, interest rate, foreign exchange and liquidity risk. The Group's overall risk management seeks to minimise potential adverse effects of these risks on the financial performance of the Group Hong Kong Dollar and Renminbi. The management reviews and agrees policies for managing each of these risks and they are summarised below.

**Credit risk**

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on customers requiring credit over a certain amount.

At balance sheet date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset.

**Interest rate risk**

At the balance sheet date, the Group and the Company has no borrowings. As such, the exposure of Company to interest rate risk is minimal.

**26. Financial instruments (continued)**

**Foreign exchange risk**

The Group and the Company incur foreign currency risk on sales and purchases that are denominated in a currency other than Ringgit Malaysia. The currency giving rise to this risk is primarily US dollars. The exposure of foreign currency risk is monitored in on going basis.

The Group also has subsidiaries incorporated in foreign countries, of which at the moment are dormant. The main currency exposures are Hong Kong Dollar and Renminbi.

**Liquidity risk**

The Group and the Company monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's and the Company's operations and to mitigate the effects of fluctuations in cash flows.

**Fair values**

***Recognised financial instruments***

In respect of cash and cash equivalents, trade and other receivables, trade and other payables and short term borrowings, the carrying amounts approximate fair value due to the relatively short term nature of these financial instruments.
